EDUCATION

Belmont University

Nashville, TN

Bachelor of Science in Computer Science minor in music

May 2024

- Operating Systems
- Computer Organization
- Human Computer Interaction (UI/UX course)
- Programming Languages
- Data Structures & Algorithms
- Programming 1 & 2

EXPERIENCE

Intern - Software Development

September 2024 - December 2024

Reaching a Generation

South Africa

- Contributed to the development of an Enterprise Resource Planning (ERP) system to automate high-frequency organizational tasks.
- Frontend Development: Designed authentication pages (login, signup, password reset) and dynamic dashboards integrating tables, icons, and calendars. Developed additional functional pages for employee management and event scheduling.
- Quickly learned and applied technologies including HTML, CSS, Bootstrap, Tailwind CSS, and JavaScript, delivering functional pages within tight deadlines.
- Showcased strong UI/UX design principles, mastering advanced CSS techniques like FLEXbox and Grid layouts

Electronics Advisor

2022 - 2024

Best Buy,

Nashville, TN

- Provide expert advice on electronics, ensuring customers make informed purchasing decisions.
- Train new hires on product knowledge and customer service best practices.

PROJECTS
